COVID-19 Temporary Closures and Other Actions **UPDATED 3/19/20 - 3:54 PM**

At this time, Tattnall County does not have any presumptive or confirmed cases of COVID-19. However, we are taking the following action to slow or minimize the potential for localized spread. *Effective March 19, 2020, the City of Reidsville will discontinue public access to buildings and facilities during normal business hours until further notice.*

City employees will be reporting to work during their normal shifts and will be available by telephone or other electronic means. Public contact will be discouraged by field personnel and social distancing will be practiced. We are encouraging the public to make payments by mail or to utilize Drop Boxes where available.

If you have specific questions, please contact City Hall by telephone to inquire about business activities that can be reasonably conducted under these conditions. Appointments will be scheduled as needed. While business activities will be limited, we will be providing additional information on City related websites, social media and mass media concerning updates.

While we are reluctant to create this inconvenience, the City of Reidsville is doing everything possible to promote best public health practices suggested by known and credible sources monitoring the pandemic. Meanwhile, all citizen-based public safety (law enforcement, jail, fire, EMS, E-911, animal control), and public works functions (water/sewer, streets and lane) will remain active with some potential adjustments or limitations.

If you have any questions, please contact City Hall at (912) 557-4786.
