

Tattnall County Hazard Mitigation Plan Update

Tattnall County Emergency Management Agency (EMA) is working to update the Tattnall County, Georgia Hazard Mitigation Plan. The Plan is a proactive strategy to reduce risks and impacts from hazards such as flooding, droughts, dam failure, and more.

This Plan will help the County better prepare for emergencies, protect infrastructure and environment, and make the community safer and stronger for years to come. The Plan also allows the County to maintain eligibility for mitigation funding from the Federal Emergency Management Agency (FEMA).

We want to hear from YOU!

As part of the Plan update, residents are requested to complete a public survey to provide input into the process. Public input helps ensure that the planning reflects the needs and priorities of the community.

Let your voice be heard! Please take a few minutes to share your thoughts by completing the survey.

The survey can be accessed via the below link or by scanning the above QR code.
